## ABBEY PLC - PRELIMINARY STATEMENT

For the year ended 30th April 2003

The Board of Abbey plc announces a profit of €48.5 million before taxation. After a tax charge of €11.8 million the group made a profit of €36.7 million reflecting earnings per share of 107.62 cents. Group operating profits during the year were €45.3 million, a 29% increase over the previous year (€35.2 million).

The Board is recommending a final dividend of 14.5 cents per share bringing the total for the year to 22.0 cents per share. The dividend is covered 4.89 times by profits after taxation.

Our housebuilding division completed 730 sales (UK 454 Ireland 276) with a turnover of €151.3 million generating an operating profit of €43 million. UK trading during the fourth quarter was significantly slower than in the equivalent period last year. The cooler market conditions have continued in to the new trading year. Price rises have tapered off as the year has progressed and at the moment our market is stable. In contrast our Irish operations enjoyed a very strong second half reinforced by very positive trading conditions in the early months of 2003. The division is hoping to complete more homes this year with all the growth likely to be in our Irish operation. The forward sales position in Ireland is good. At the year end the group held land with the benefit of planning permission \ or resolution to grant planning permission for the provision of 2,368 plots, approximately three years' output.

Joint venture turnover arising from plot sales at the development in Clonsilla, Co. Dublin, totalled €2,831,000 generating an operating profit of €1,850,000.

M & J Engineers reported operating profits of €2.1 million on a turnover of €20.4 million including a profit

of €178,000 arising from the disposal of a surplus yard in Luton. Trading has progressed in line with our

expectations. Management continues to focus on improving the profitability of the business, however, rising

costs together with generally falling plant prices are not helping. Capital expenditure is tightly controlled.

Trading for the first two months of the new year is at very similar levels to the year being reported.

Rental income arising primarily from the letting of surplus space at group property was €235,000.

At the year end shareholders' funds stood at €159 million representing €4.67 per share whilst net cash balances

stood at €31.57 million.

Shareholders should carefully note the exchange rates used for this statement. The profit and loss statement

uses the average exchange rate for the year of €100 cents : STG 65.21p. The balance sheet uses the rate

prevailing on 30th April of €100 cents: STG 69.80p.

Trading in the new year is progressing at a reasonable level. Background conditions are less positive than for

sometime, however, our good forward order position (particularly in Ireland) means that prospects for this

trading year remain good.
